

Luis Herrera-Campos, EA

Scottsdale, Arizona

luis.herrera@example.com | 480-555-0126

Tax Senior at a 40-person CPA firm with five busy seasons behind me. I prepare and review individual, partnership and S-corporation returns for owner-managed businesses, most of them in construction, real estate and medical practices, and I handle IRS and Arizona DOR correspondence for the firm's clients as an Enrolled Agent (admitted 2023).

Experience

Saguaro Tax & Advisory, PLLC, Scottsdale, AZ. Tax Senior, January 2024 to present. I review roughly 350 returns a season prepared by two staff and prepare the most complex 120 myself: multi-state partnerships, S-corps with built-in gains, and individuals with K-1s, rentals and equity compensation. I run the firm's extension and estimate process, manage the tax calendar in CCH Axcess Workflow, and prepare the returns in CCH Axcess Tax. I also handle federal and state notice responses (about 60 a year) and represent clients in three ongoing IRS examinations. Since 2025 I have led the firm's year-end tax planning meetings for our 40 largest business clients, which means pulling trial balances from the clients' QuickBooks files, projecting taxable income in Excel and recommending entity elections, retirement plan contributions and fixed-asset timing.

Saguaro Tax & Advisory, PLLC, Scottsdale, AZ. Tax Associate, September 2021 to December 2023. Prepared about 400 individual and business returns a season in Lacerte, then in CCH Axcess after the firm converted in 2023. Performed bookkeeping clean-ups in QuickBooks Desktop and QuickBooks Online to get client books tax-ready, prepared 1099s and Arizona TPT filings, and drafted notice responses for review.

Education and credentials

Bachelor of Science in Accounting, State University, 2021. Enrolled Agent, admitted to practice before the IRS, 2023. Member, National Association of Enrolled Agents. Fluent in Spanish; I handle the firm's Spanish-speaking clients.

Software: CCH Axcess Tax and Workflow, Lacerte, QuickBooks Online and Desktop, Microsoft Excel, Adobe Acrobat.
